Grand Deformer

Superior foam deformer

Description:

GRAND DEFORMER is a high silicone-based antifoam preparation designed specifically for industrial applications such as waste water treatment.

Simply add **GRAND DEFORMER** to the solution that needs to be deformed, it can be diluted into water but may not stable for long period of time.

Area to use:

Wet Vacuum solution tank, any solution deformed is desired.

Specification:

Color / odour: Free flowing off-white cream

S.G: 1.0 +/- 0.005

Ph:

Vapour Pressure: Similar to water

Boiling point: 100⁰ C

Flash point: Non-flammable.

Precautions:

With most chemicals products, eye contact and ingestion should be avoided. If product contact eyes, flushing with water should be sufficient, if ingested, dilute by drinking water and medical help.

Direction of use

Foam is very good for carrying dirt due to its huge surface area, but some times it is very bad if you are trying to use a wet vacuum cleaner, so the answer is here, **GRAND DEFORMER**, add only **20 ml** into a 90 liter solution tank during working, it will greatly reduce the foam and extend the working hours of your vacuum cleaner.

This is also depends on the cleaning chemicals you are using, recommended is shown above.
